

IFDB Fiber Optic Wall Box with Universal splice holder for up to 12 mechanical or SMOUV splices

- Allows splicing those fibers from an indoor riser cable to the individual drops
- Allows fibers from certain riser cables to be broken out without interrupting the strength member
- Separate storage of un-connected fibers from spliced drop fibers
- Compatible with mechanical, SMOUV and ANT splice protectors
- In-line and butt configuration possible for main riser cable

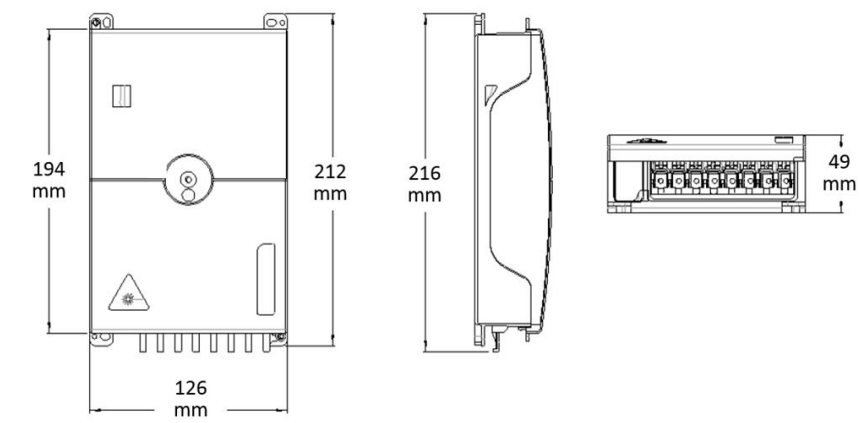

Product Series	IFDB
Product Type	Fiber wall box
Regional Availability	EMEA

Color	Light gray
Cover Type	Screw-on
Enclosure Material	LSZH thermoplastic

Splice Capacity	12
Splice Chip Type	Mechanical SMOUV

Depth	50.00 mm 1.97 in
Height	200.00 mm 7.87 in
Width	126.00 mm 4.96 in

Standards Compliance	IP30 UL 94 V-0
